Section 1: Program Description

1) Background

YCST envisions to achieve four program objectives, of which Objective 2 is to build the capacity of formal and informal local leaders, organizations, and networks to serve as neutral arbitrators and peacebuilders and meet community and constituent needs. Within the targeted communities and at the district level, YCST plans to strengthen local mechanisms, and the skills of those who participate in them, to identify and address unresolved grievances that can spark a violent conflict. To that end, YCST manages a Peacebuilding Grants Fund (PGF), which specifically contributes to the second outcome of Objective 2: *'CSOs strengthened to promote social cohesion, participation of women and youth, and reconciliation'*.

The PGF aims to support non-governmental organizations (NGOs) and civil society organizations (CSOs) to implement high-priority, technically focused activities such as increasing women's participation in peacebuilding and promotion of positive engagement of youth in civic life. These activities also network women and youth across communities and address peacebuilding priorities that further the purpose of YCST in all targeted communities. Therefore, Engagement of Youth in Civic Life (EYCIL) is one of the main high-priority activities under the PGF. YCST is requesting for applications to implement EYCIL in the targeted areas in Abyan, Lahj and Taiz governorates.

2) Objective and Interventions

The main objective of the EYCIL is to promote youth engagement in civic life in the targeted area. EYCIL will be implemented in close coordination with the community committees established by YCST as well as with Enhancing the Role of Women in Peace (ERWIP), which is the second main high-priority activity of the PGF in targeted communities. Below is list of the interventions of the EYCIL and applicants may propose additional activities that contribute to the objective of the EYCIL while remaining within the award ceiling.

- 1) Awareness raising for youth, local authorities, and community leaders on the importance of United Nations Security Council Resolution 2250 and involving youth in resolving conflicts, reconciliation, negotiation, and peacebuilding processes by holding discussion session. This should also include ensuring that a safe space is established, where participants can openly discuss issues affecting youth and how to overcome them;
- 2) Training of youth on conflict resolution, negotiation and mediation. At the end of the training, the participants will select an issue of their own choice, and develop a solution and an action plan for its implementation. The youth will put the skills gained from the training into practice to resolve a particular dispute between members of the community and/or neighboring communities. This activity will also involve documentation, which will lead to production of four educational short video clips, on conflict resolution and mediation. The participants will be exposed to the basics of the content creation for social media platforms; and
- 3) Supporting the trained youth with appropriate expertise, equipment, supplies and financial support to the following activities:
 - a. Produce (4) short educational video clips on conflict resolution and mediation.
 - b. Identify a communal activity, which will benefit the entire community, and implement it during the lifetime of the grant. Examples of such activities include, but not limited to, cleaning campaigns, planting trees, etc.

- c. An activity or activities specifically targeting female adolescent and youth. Examples of such activities include but not limited to Table Tennis Tournament, which will feature female teams from schools in targeted communities.

3) Expected Outcome

The activities of EYCIL are expected to raise awareness of the targeted communities, specifically their decision makers, on the importance of United Nations Security Council Resolution 2250 and involving youth in conflict mitigation, reconciliation, negotiation, and peacebuilding processes. The intervention will also support a number of youth beneficiaries (at least 40% female) gain the skills to become influential civic actors and agents of positive social change. The grant will also enable youth to share their unique perspectives on local issues and their solutions with decision makers. In addition to conflict resolution, the youth participants will be trained on content creation for social media platforms and produce an educational content. The voluntary communal activities, which will be implemented by the youth participants, will also benefit the entire populations of their communities.

Section 4: Application Review Information

A. General

Applications will be evaluated in accordance with the Review Criteria set forth below. To facilitate the review of applications, applicants are advised to organize the narrative sections of their applications in the same order as the Review Criteria.

An application may be eliminated from consideration before a detailed review is performed if the application is considered obviously deficient as to be totally unacceptable on its face or which prices are inordinately high or unrealistically low. In the event an application is rejected, the applicant will be sent a notice stating the reason(s) that the application was not considered for detailed review.

B. Basis for Award

1. The technical factors presented below will serve as the basis upon which applications will be reviewed. The relative weight accorded to each factor is expressed in points with 100 points possible.
2. Applicants are reminded that Global Communities is not obliged to make an award on the basis of lowest proposed cost or highest technical evaluation score. Although for this RFA technical merits are considered more important than cost relative to deciding who might best perform the work, cost factors and Global Communities prime recipient budget must also be considered. Therefore, after the final evaluation of applications, Global Communities will make the award to the applicant whose proposal offers the best value to Global Communities and USAID, considering both technical and cost factors.

C. Evaluation Criteria

1. **Technical Approach (40 points)** – The extent that the applicant’s proposal demonstrates a clear and effective overall technical approach to performing the requirements described in the Program Description.
2. **Capabilities and Relevant Experience of the Organization (20 points)** – Demonstrated organizational capabilities and experience as follows:
 - Specialized competence of the organization (10 points).
 - Organizational competence relative to the Program Description, including knowledge of and experience in interventions related to youth civic engagement, youth volunteering and participation (5 points).
 - Proven record of providing technical assistance and mentoring to youth in conflict resolution and designing and implementing youth-led communal initiatives (5 points).
3. **Proposed Key Personnel and their Qualifications (20 points)** – Demonstrated expertise, experience, and availability of personnel to meet the requirements of the Program Description.

4. **Past Performance of the Organization (10 points)** – Quality of product or service, including cost control, timeliness of performance, and meeting goals and targets, and customer satisfaction with performance.
5. **Cost Proposal (10 points)** –Applicants are reminded that YCST is not obliged to award a grant on the basis of lowest proposed cost, or to the bidder with the highest technical evaluation score. For overall evaluation purposes of this RFA, technical factors other than cost, when combined, are considered more important than cost factors. Cost will be evaluated for realism and reasonableness in accordance with FAR 15.404.

D. Cost/Price Analysis – Global Communities will also review the cost applications, but scores will not be assigned. The cost review will focus on three sub-factors: Cost Realism/Reasonableness, Cost Completeness, and Cost Effectiveness.

1. **Cost Realism/Reasonableness:** The cost realism analysis is intended to determine whether the costs estimated accurately reflect the costs that would be incurred during the actual performance of the program, and whether those costs are reasonable. In addition, Global Communities will make a determination of cost reasonableness based on its own cost experience for similar items or services, what is available in the marketplace, and/or other applications.
2. **Cost Completeness:** A detailed line item budget, budget notes, assumptions, and schedules that clearly explain how the estimated amounts were derived must adequately support the Applicant’s cost proposal. Global Communities may request additional supporting information to the extent necessary to determine whether the costs are realistic and reasonable.
3. **Cost Effectiveness:** involves maximizing the percentage of the budget allocated to program delivery.
5. **Ineligible Costs/Activities:** Commodities and services that are ineligible for financing under this RFA include the following:
 - i. Military equipment.
